EXECUTIVE SUMMARY

Innovative and strategic UI/UX Designer and Lead Front-End Developer with over 14 years + of rich experience in crafting human-centered digital experiences for web, mobile, and enterprise platforms. Expertise in bridging the gap between design vision and technical execution—leading design systems, user research, wireframing, interactive prototyping, and modern front-end development. Proven track record of scaling digital products for high-profile global clients like Kuwait Petroleum Corporation, KPMG, Protivity, and Boubyan Bank.

CORE COMPETENCIES & MODERN TECH STACK

• **UI/UX & Product Design:** Figma, Adobe XD, Photoshop, Illustrator, Wireframing, High-Fidelity Prototyping, Design Systems, User Research, Information Architecture, Usability Testing	• **Front-End Development:** HTML5, CSS3/SASS, JavaScript (ES6+), Modern React Basics, Tailwind CSS, Bootstrap, jQuery, Responsive Web Design, Cross-Browser Testing
• **Workflow & Tools:** Zeplin, Sketch, InVision, Git/GitHub, CI/CD Environments, Agile/Scrum Development	• **Leadership & Strategy:** Design Direction, Team Leadership, Client Management, Requirements Gathering, Project Lifecycles

PROFESSIONAL EXPERIENCE

Intigate Technologies | Lead UI/UX Designer & Front-End Developer
Noida, India | Jan 2013 – Present

- Head end-to-end UX/UI design strategy and front-end development across web and mobile platforms for international clients.
- Lead and mentor a multidisciplinary team of designers and developers, defining scalable design systems and maintaining brand consistency.
- Conduct comprehensive user research, customer journey mapping, and wireframing in Figma/Adobe XD to maximize UX usability.
- Develop high-performance, responsive front-end applications using modern HTML5, CSS3, JavaScript, and Bootstrap frameworks.
- Collaborate seamlessly with cross-functional product managers and stakeholders within CI/CD and Agile environments.

Hivish Technology | Front-End Developer & UI Designer
Delhi, India | Jan 2012 – Dec 2012

- Designed and engineered custom responsive website layouts and interactive web components using HTML, CSS, JavaScript, and Bootstrap.
- Created brand collateral, digital display displays, and marketing materials for diverse corporate clients.

VT Info Net | Web Designer & Developer
Delhi, India | Mar 2011 – Dec 2011

- Conceptualized and built custom web UI solutions, wireframes, and branding designs from client requirements.
